

# smartZoom® classRoom

**SmartZoom® ClassRoom** is the leading e-learning platform for medical teaching and revolutionizes the interactive presentation of images and diagnostics for students and physicians. This is because SmartZoom® not only integrates digitized histology images, but also photos, videos, texts and quizzes that are compiled into courses. No software installation is required for this – everything is available directly in the browser via PC/laptop, tablet or smartphone at any time.

Here are the features at a glance:

## STUDENTS AND MEDICAL PROFESSIONALS CAN ...

- learn and collaborate anywhere, anytime
- create their own annotations and notes on the platform
- learn interactively with videos, tutorials and textbooks - all in one place
- be encouraged to work in groups thanks to group annotations & notes
- also view two to six slides simultaneously & synchronously with the advanced case viewer - ideal for comparisons

## TEACHERS...

- create complete courses with microscopy and radiology images
- add annotations, with which all users can learn
- share courses with other universities
- see students' learning activities and progress
- can share learning materials complementary to the slides, e.g. PDF documents, presentations, photos, audio files, texts, Excel spreadsheets, external forms or educational videos via iFrame.

## YOUR BENEFITS

### UPDATES & PARTICIPATION

- New features are integrated directly into your platform
- You can help develop the platform yourself and contribute feature requests

### NETWORK

- Users can participate in international expert meetings on Digital Pathology for free

### UNLIMITED SUPPORT

- A support hotline will be available to you even after onboarding

### IN BEST COMPANY

- Among many others, the European Society of Pathology, the International Academy of Pathology (IAP) and the International Academy of Cytology (IAC) already work with SmartZoom®

# smartZoom® classRoom

## OPEN PLATFORM

- SmartZoom® supports all image formats including DICOM for radiological examinations

## QUIZ FUNCTION

- Create quizzes and repeatable self-tests to check learning progress
- Use different types of questions such as multiple choice, free text and matching

## USER ACCESS

- In addition to normal login, you can also use codes to invite new participants to your SmartZoom® platform and control who has access to what content

## LEARN DIGITALLY

You don't have digitally scanned slides of your own? We can support you with fully annotated sets for pathology, cytology, hematology and biology.
